It's really an awesome work done selfie Miniature team. Special thanks to Jenifer who has coordinated well and given the product to us. They have said by photograph they can achieve 80-85% but in my case they have achieved 10% more.

The timelines are also well maintained and the digital proof reading technique is awesome.

I recommend everyone who are interested to get the best product please do go with selfie Miniature you won't get disappointed at all.

I will for sure forward and personal recommend many of my known people in my network to get work done with this organisation.

Once again thank you and all the best in your future endeavours.
